

Africa Mobility Services

home in Africa

When you relocate, it's about more than finding a house. It's about creating a home in a new environment.

Moving home

Relocation management

International logistics

Turnkey solutions

Africa Mobility Services – what we do is in our name. We offer not only the certainty of transferring belongings, but also help you find a new home, conduct a school search and familiarize you with local culture.

We can even help organize finances and insurances. All aimed at giving you complete peace of mind and a great start to life in a new environment.

Our services

Moving home

Experience counts for a lot. AMS has been providing domestic and international removal services for many years. We have the knowledge and experience that is required to really understand and fulfil our clients' needs and wishes.

Relocation management

AMS provides advice on the best way for you and your family to begin life in your new environment, from documentation and local customs to what's needed and what's expected. The whole process, stress-free.

International logistics

Whether you're a company relocating, an expanding retailer or searching for a trustworthy partner for your valuable shipments, AMS goes the extra mile for you to optimize every link in the chain.

Turnkey solutions

Because each assignment has its own set of requirements, the solutions AMS provides are customized accordingly.

"Relocation isn't just a question of finding a house, it's about creating an enjoyable life in a brand new culture."

Move with confidence

Moving home is a matter of confidence. As movers we realize this better than anyone else. Africa Mobility Services (AMS) likes to earn your trust by giving you the best moving experience. We aim to ensure that the relocation experience is as smooth and stress-free as possible.

Move dashboard

In today's world of international moving services, technology plays an increasingly important role and can create efficiency from start to finish of any move. With Move Dashboard we have data at our fingertips – anytime, anywhere.

Handy apps

Our SurveyApp gives you a flexible self-survey solution that provides you with the possibility to do your own home pre-move survey and gives you a clear view of the household items that need to be moved. And the ClaimApp provides you with an easy-to-use electronic form and greatly assists in claim handling where household items are damaged or lost.

Safe and secure storage

Whether you need to store the entire contents of your home or just a few specific items, for a short period or long term: we have the storage solution for you. From access control and remote monitoring to all kinds of storage options.

Home search

Our Relocation Consultants will help you find the home that suits your needs, in a location that is both safe and convenient for the whole family. We also assist in a school search for children and find temporary accommodation if needed. From arrival to departure, all bases are covered.

Office to office, desk to desk

AMS specializes in office relocations, designs, refurbishment, fit out and delivery of corporate furniture systems. From marking, transport and handling of multiple work spaces to fragile IT equipment or over-sized item handling, AMS ensures your office move is performed as seamlessly as possible without disrupting your normal business activity.

All-embracing philosophy

Our philosophy is based on fostering a culture in which our employees and members work with integrity, quality and care to mutually benefit each member's business so that we can fulfil our mission to give the customer the best service possible at all times.

AMS has been providing moving services for many years, and we have the experience that is required to really understand and act on our clients' needs.

Contact us to find out how we can give you peace of mind in your move.
